

## INSTALLATION OF VO

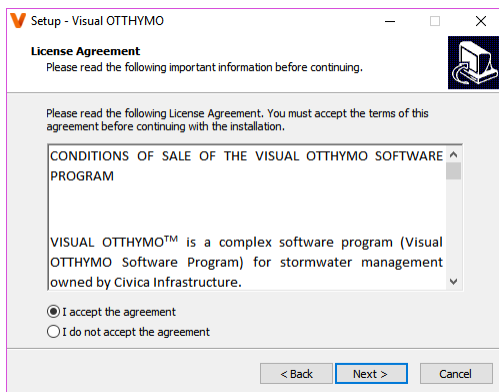

Before installing VO, make sure that you have closed all other programs and that any virus protection software is disabled. To install VO on your computer, please follow the directions below.

**Step 1:** Download the installation file from our website. The download link is updated once a new version is available. [VO Download Link](#)

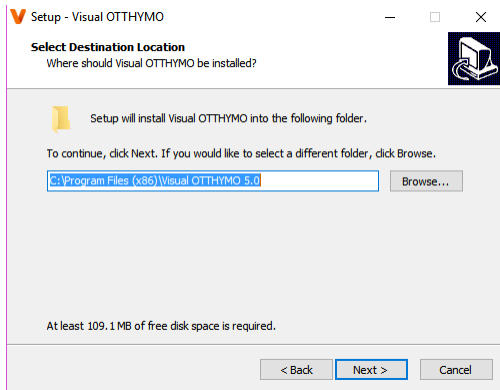

**Step 2:** Click on the installation file and follow the instructions in the installation wizard as seen below.

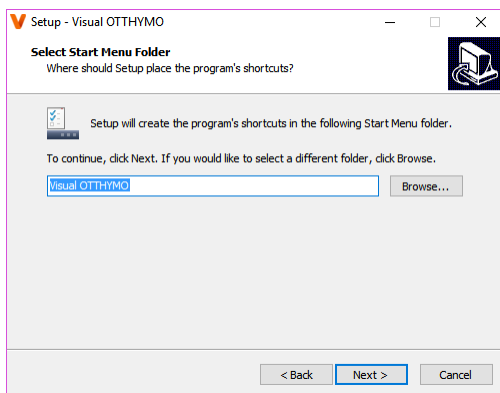

**Step 3:** Accept the License Agreement

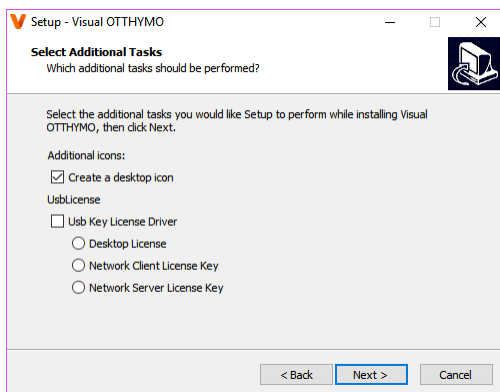

**Step 4:** By default, VO6 is installed on **C:\Program Files (x86)\Visual OTTHYMO 6.0**

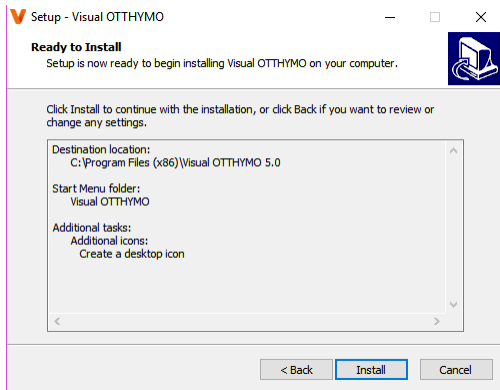

**Step 5:** Setup will create a shortcut in the **Start Menu** folder

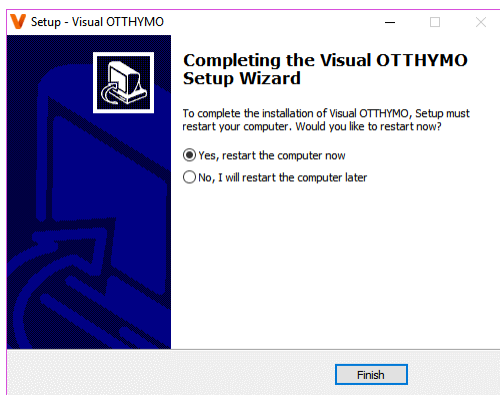

**Step 6:** Choose to **Create a Desktop Icon** AND **UNCHECK** USB Key License driver as we now utilize a cloud-based licensing system.

**Step 7:** Click Install

**Step 8:** To complete the installation, you need to restart your computer.

**Step 9:** To activate VO6, copy and paste VO cloud license file (vo.lic) into Civica folder or Use Selected License button on the License Manager Window. The default location is C:\ProgramData\Civica\VH6.
